

What we are noticing:

- We have heard from participants that NDIS plans with SIL funding are being advised to use registered providers
- Many plans with more than 6hrs of 1;1 support or require 24/7 support are being moved to SIL through Home & Living Decisions
- Those that have created support teams with independent workers, self-directing or employing their own workers are scared, worried about losing their teams.
- Confusion and mixed messages from NDIA planners and call centers

How Support Coordinators can help

- Setting up Individualised Services – connecting you to experts
- Setting up systems and processes for recruitment & payroll
- Development of Policies and Procedures, Document Management Systems - evidencing support
- Budgeting – NDIS funding and Support Service
- Develop &/or organise staff training
- Support meeting compliance for NDIS – regular checks
- Managing a team – support, supervision, team meetings
- Planning – to engage visioning and goals
- Contribute to management and / or governance meetings

Create Your Own Path

We partner with you to build ethical, transparent, and participant-led supports that help you grow with confidence

A new model for families who value choice, trust, and collaboration

Our Sister Organisation – Butterfly House Collective

A new model for families who value choice, trust, and collaboration

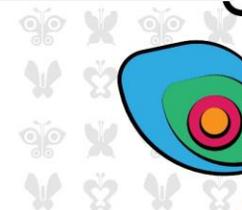

Two Levels of Support

Pathway 1 - Guided Independence

Participants self manage with structure, governance, and peace of mind.

Pathway 2 - Shared Partnership

Collaborative management blending freedom with professional oversight.

What does Butterfly House will do?

- NDIS Claiming process – Level 1 - 5% , Level 2 - 7%
- Provide updates on NDIS Compliance requirements
- Board or Management meeting attendance (6 per year)
- Shared Agreement – Contract set up
- Tracking, reviewing and reporting of restrictive practice and high complex care
- Annual desk-top and face to face Audits
- Budget development and quarterly review
- SIL reporting development

Organisations that support 'Services for One'
